## [“You won’t get your dogs back Geraldine, Its Political”](#)

Posted By [Administrator](#) on December 16, 2008

This was told to Geraldine Robertson by RSPCA Inspector Lawrence Stageman. The President of the Poodle Club of Queensland inc had someone else tell Geraldine. Many others, mostly from the Poodle Club of Queensland Inc. also told Geraldine this in many forms - “you won’t win, its Political”.

This is saying that the Department of Primary Industries & Fisheries are corrupt and this was confirmed

by the DPI Liaison Officer to RSPCA, ex employee with Department of Public Prosecutions, Fiona Ferguson in the witness box on 24 November 2008, who forfeits animals for RSPCA to sell which they call “adoption”, when she said that wet concrete was a sludge of faeces and urine. This is saying that the Magistrate is corrupt.

This was confirmed to Geraldine Robertson when she was not allowed to identify her world famous pedigreed NEIGER poodles when the photos purported to be her poodles are just a bunch of mongrels. When the Magistrate said that there has been no perjury after having twice protected two perjuring witnesses, Shayne Towers-Hammond and Lawrence Stageman, from being exposed for their perjury. How can this corruption be stopped? How can the public get justice from the Queensland Courts? Is Queensland really this CORRUPT??? - read on.

You can do something, you can help by exposing this corruption. Send this link

to as many people as possible suggesting they look at this site and then send emails to politicians condemning them for allowing this corruption to occur in Queensland. Stamp out corruption now!!!!

I saw first hand the wretched conditions these pathetic creatures lived in, inside and outside the house was something out of a horror movie, the dogs were crammed in small cages covered in faeces and urine, the smell would take your breath away, even from outside the house one could

smell the putrid stench, the house had dogs everywhere, it was teeming with rats, Geraldine had rat poison everywhere, which one dog ate and I had to take her and the dog to a vet to get treated, as at that stage she had no car

When Geraldine could not sell her pups, she off loaded them to pet shops in the Beenleigh area for \$200 to \$300, whatever she could get, she was desperate and had no real money coming in to feed the dogs, CCCQ would not register her dogs due to non payment of puppy registrations etc etc so how can these dogs be supposedly worth \$5 million???

She should NEVER be allowed to own a dog again, these dogs have had a lucky escape and if the RSPCA backs down and gives them back, that would be a criminal act. Her house would have to be unfit for human habitation and should be bulldozed, it’s full of white ants and rats.

I don’t believe all the stories she has put out about the RSPCA going through her underwear and getting excited about it, she is an old, dirty, scabby Asian who is not a pretty sight, and I believe to be quite mad, as for having cash and jewellery in the house, that is extremely doubtful as she was always scratching around for money.

The RSPCA should have acted earlier to close her down, as they should do to all these puppy farmers in Queensland selling sub standard dogs to the unsuspecting public, ban the sale of animals in Pet Shops and this will curtail some of these parasites, let’s think of the animals for ONCE! not the almighty dollar.

Geraldine is an excellent dog groomer and should stick to that, she should be banned for life from ever owning any animals, she isn’t able to breed and register them anymore and she certainly can’t look after them as they should be looked after, she doesn’t have the time or money.

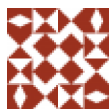

I .for one, do not donate to the RSPCA as they are not doing a good enough job and only seem to target the cases that will get them plenty of publicity which equates to donations, this raid on Geraldine was staged to gain the most publicity, the welfare of the animals was secondary.

are you for real, those dogs were kept in terrible conditions no dog should have to live like that, I wonder how she would like to live in her own shit and to be so notty that it would be puling on your skin. And lets see what was she doing with in excess of 100dogs??? I see a puppy farmer..... australia needs less of these people and so does the dog world when the rest of us work so hard for our breed.... she should be locked up for a very long time

Dear Laraine Stevensen

What you say sounds like the mantra the RSPCA are saying. It becomes obvious that you have one or more of my dogs from RSPCA and do not want me to get them back. I was acquainted with you as you used my dogs for stud breeding purposes and would not pay me any stud fees. When I put an end you using my dogs you were upset. You have never been in my home. You have never been to or seen my kennels. What you are saying sounds very suspect. It indicates you have

personal motives. The racist slur is consistent with the nasty racist letters that were sent to me. It is consistent with all those nasty abusive phone calls I received.

You made big profits from my dogs services and I was not paid anything for it.

Now you turn nasty and chant the RSPCA mantra. You obviously recognised the value in my dogs as you were so determined to use them. But your greedy nature of refusing to pay caused me to deny you any future services from my stud dogs.

I should have known better and not dealt with you in the first place. When you were telling me those slanderous things about other breeders I should have expected that you would slander me also.

The other thing I notice is that you seem to “know so much about me” that has been put around by RSPCA that are just a pack of lies. I know about your breeding poodles with falsified pedigrees and selling them as pedigreed for the extra dollars. I saw these dogs advertised as pedigreed. CCCQ and RSPCA should be investigating you. You have a lot to hide yourself so do not come out with your malicious lies and slander on me.

That mention about Geraldine Robertson’s under wear above has got it wrong. After the raid back at RSPCA I saw her panties were being handed around with great laughter as various Inspectors put their fingers through a hole in them and wriggled them around. They were referring to her as the chinese slut, chinkinese, and other racist terms. I was disgusted. They also handed around photos seized and had a good perv and lots of laughing

I also saw lots of Geraldine Robertson’s property being examined and divided up. Since then I have had very little to do with RSPCA and do not help them out anymore.

When a small group are given massive Police Powers without supervision they go rogue. The Stanford Prison Experiment (Google it) and other similar experiments proves this. Queensland’s Animal Care and Protection Act 2001 appoints RSPCA staff as inspectors and the Chief Inspector,

Michael Pecic, has the full Administrative Powers of the Act delegated to him. The Crime and Misconduct Commission cannot investigate as RSPCA are not a unit of Public Administration and the Police cannot investigate because RSPCA administer an Act of parliament. RSPCA have massive powers, are unsupervised and have a money motive - they sell seized animals for \$ and publicity. RSPCA is the “Stanford Prison Experiment” with a money motive. The Queensland Labor Government set RSPCA up and will kill them as

## RUTH DOWNEY

### **RUTH DOWNEY RSPCA PROSECUTION DISGRACE**

### **Help the Persecuted**

Instead of donating to the NSW-RSPCA, where much of your money is spent on such projects as the persecution of farmers like Ruth Downey, mainly elderly women on their own, vulnerable to the "Storm Troopers" the RSPCA send out to so-called help farmers that in effect will make this 73 year old lady destitute on more than suspect evidence and massive collusion uncovered by SOS-NEWS.

We need to help these people from the uncovered greed of the RSPCA legal services provided by private legal practises owned by Directors at the NSW RSPCA who conduct legal prosecutions for the RSPCA in NSW that need a serious inquiry to backdate a decade of their money harvesting operations.
