Good Morning Dominic

It is 8 am and I have just had a message relayed from my practice that the RSPCA has again cancelled. Could you perhaps relay to them that separate to whatever issues they have with Geraldine, that twice now I have rearranged my practice to suit their time schedule. Twice they have wasted the resources of my staff and my self.

If any future arrangement is made, please supply me with a contact name and number of the responsible person. I will phone this person and advise them of how inconvenient their games are, and that should they cancel again with little or no notice, an invoice for professional services will be generated to compensate me for lost economic opportunity!

Sincerely
Calum
