

To. LAURIE STAGEMAN.

- (1) The following 3 pages are descriptions, etc... of dogs taken by you (RSPCA) yesterday.
- (2) The urgent needs of some of the dogs have been noted on the pages.
- (3) Some of the bitches are
 - (1) Pregnant (I will check my diary for due dates later)
 - (2) In season
 - (3) Coming into season
- (4) DORIS (red toy) had puppies on early hours of 9/1/07, she has longish wool coat & was taken from a cage in the lounge under the fan. All dogs in the house either need treatment (bath, clip, groom) etc. or have new babies or expected to give birth. This is the only way I best attend to them efficiently etc...

When ~~the~~ she was removed, the inspector did not take her new born puppies, they are now dead.

More importantly she would be extremely stressed out, please isolate her from the others.

- (5) Ruby (red toy) is ALSO due to whelp this week.
